Recommended Reading: Book, "Fearfully and Wonderfully Made by Dr. Paul Brand

Key thoughts by Pastor David:

God's hand has made and fashioned us. We are not an accident. We are designed by God. A complex being, made in the likeness and image of God Himself.

Illustrations given:

#1 Brain: 12 Billion neuron cells that do not die from the day we were born. That's why we have memories from way back to our childhood.

It is powered by 100 billion GLIA cells – brains own biological battery!

#2 Nerves: So fine that one hair width contains 100 thousand wires!

Skin: Feel and detect textures, temperature, light, pressure, etc. Shed 10 billion cells/day.

Voice: Can imitate all kinds of sounds.

Nose: Detect and identify smells.

Bones: It's the frame and structure of our body, with joints and anchors.

Etc...

Secondary thoughts...

Our entire body is made to function in harmony.

What happens when this harmony is disturbed?

.....

Chinese sinsehs are well learned on the importance of harmony in our body...the yin and the yang. Whenever a person falls sick, primarily they prescribe medications to bring back the

balance/harmony.

As Christians, what can we do to bring us back to harmony ~ with God and self (spirit, soul and body)?

.....

(Read: Phi 4:5-8)

Prayer and meditation on the Word brings us back to harmony. It helps us to tune in to God's frequency and connect with Him, who is our Maker/

Designer.

Illustration given: Tuning in to the RADIO.

How and what does this illustration show us about prayer and hearing from God?

.....

Final Discussion and Application: **How does this apply to us as the Body of Christ; different members but functioning in HARMONY?**
